

SUPPORTING YOUR NET ZERO JOURNEY

The climate emergency poses a real challenge to all of us. Companies will need to adapt and adopt sustainable practices to survive. Knowing where to start can prove a challenge.

About us

The team supports a variety of SMEs through engagement to facilitate the application of more sustainable practices, identify opportunities for waste stream or carbon footprint reduction and adopt circular economy practices.

We provide support for:

- Manufacturing Sector SMEs
- Design SMEs
- Remanufacturing Sector SMEs
- Start ups

OUR SERVICES

Our free services are provided as discrete units, each of 7 hours. These can be used singly or as multiples. Our services include:

- Future SME Diagnostic
- Baselining your Carbon Footprint
- Signposting for Funding
- Energy Audit
- Net Zero Roadmap
- Value Stream Mapping
- Lifecycle Analysis
- Continuous Professional Development
- Building your Supply Chain
- Readiness for Remanufacture
